2. Is there any criteria fixed from eyantra IIT Bombay side for nominating 30

students or do we need to fix it at our institute level?

You are free to nominate students from your institute. However, we recommend the

students nominated to be from different disciplines. They'll have to go through a

selection test through which e-Yantra will shortlist 10 students to take part in the training

program.

3. Will this training be the same as the previous online TBT challenge of 3 months?

Although the content of the training will be the same as the last time, there are changes

in the training methodology. This time each member will have to participate individually

and not as a member of a team. Also, you may do the training without the hardware as

we now use simulation-based training.

4. What are the Training charges?

e-Yantra will provide training to 14 participants for Rs. 50,000/- as training charges.
